Who has agreed to do a program for us in August on scratch stock tools and methods.

Programs:

For the July meeting we are going to have a presentation on sandpaper. Bryant Webb from true grit abrasives will be giving the program. Tonight's program was a question and answer by Bryant Webb and Gene gave a short demo of a new toy, a laser CNC for burning names on pens or whatever you want to personalize. The only drawback is it has to be small.

Show and Tell

Show & tell we had 8 entrants. Gene Simmons won the \$15 gift card and Terry Sanchez won the \$10 Gift card.

Charlie Mays—hobby horse, he made four for his wife's group

Terri Sanchez—shows us his giant urn as a gift to his heart surgeon who performed his triple-by-pass. There are 914 pieces of blood wood and yellow heart. He worked on this piece for 22 days, however, he still did not punch a time clock. Thus, the exact amount of time—in hours—is still unknown.

Bruce Woody—two pens that have second amendment encapsulated in acrylic. Turned bowl from apple wood, and a small platter out of Cuban mahogany

Art Falcone—A giant ornament with paduke and maple. He had to sand down the maple and seal it so the paduke wouldn't bleed into the maple.

Ruth —scroll saw work of an owl.

Stacey Rhody—various toys

Frank McMullen—A “pig-tail flipper” and a knife sharpener.

Gene Simmons—pens. He poured his own blanks with pine cones and turned a pen.

He has a laser that he can
scribe into *unfinished* pieces.
